Relation to Maritime College

In general, how has COVID-19 affected you as a member of the Maritime College community?

My college experience has been fairly normal as I am a 4/C and had no prior experiences at the college so therefore I cannot personally testify as to how my experience is different. I can imagine that life would be easier without all of the restrictions. It's a strange experience but it's not awful.

What was it like to transition from learning or teaching in-person to online? Did you find it difficult to adjust? Why or why not?

I found it difficult to adjust because now i have to be way more diligent about my school work and making sure that i'm not missing anything where as in I had face to face instruction previously which made it easier for me to figure out what I needed to get done and how to get it done.

At what point did you begin to worry about how COVID-19 would impact your semester at Maritime? How has your timeline to graduate or complete projects at Maritime changed?

My timeline did not change as of right now i am on the right track to graduating on time.

These responses were pulled from questions on a Google Form sent to students, faculty, and staff of Maritime College in May 2020. The purpose of the Google Form was to collect stories from the Maritime College community to be included in the "Documenting COVID-19 at Maritime College" archival collection.
